## ***TMC's Eagle Pass Center earns National NAEYC Accreditation***

**Eagle Pass, TX** – TMC's Migrant & Seasonal Head Start Center located at 2030 FM Rd., El Indio Highway in Eagle Pass, TX has earned accreditation from the National Association for the Education of Young Children (NAEYC) – the nation's leading organization of early childhood professionals. A center's NAEYC Accreditation is a sign that they are a leader in a national effort to invest in high-quality early childhood education, and to help give all children a better start."

"We are excited about earning the mark of quality from NAEYC. This recognition conveys our commitment to providing the families we assist the highest quality services," stated Rodolfo Lopez-Center Manager. "NAEYC Accreditation lets families in our community know that children in our program are getting the best care and early learning experiences possible," stated Mary Capello-CEO. Approximately 8 percent of all preschools and other early childhood programs in the nation are currently accredited by NAEYC.

To earn NAEYC Accreditation, the Eagle Pass Center went through an extensive self-study process, measuring the program and its services against the ten new NAEYC Early Childhood Program Standards and more than 400 related Accreditation Criteria. The program received NAEYC Accreditation after an on-site visit by NAEYC Assessors to ensure that the program meets each of the ten NAEYC program standards. NAEYC-accredited programs are also subject to unannounced visits during their accreditation, which lasts for five years. "The new NAEYC Accreditation system raises the bar for preschools, child care centers and other early childhood programs," said Mark Ginsberg, Ph.D., executive director of NAEYC.

### **Background**

As of September 2006, the Association's revised program standards and criteria have introduced a new level of quality, accountability, and service for parents and children in child care programs. The new standards reflect the latest research and best practices in early childhood education and development. NAEYC is committed to utilizing the newest studies and analysis on positive child outcomes to ensure young children continue receiving the highest-quality care and education possible. To earn NAEYC Accreditation, a program must meet each of the ten NAEYC Early Childhood Program Standards. Programs are accredited by NAEYC for a five-year period. The NAEYC Accreditation system was created in 1985 to set professional standards for early childhood education, and to help families identify high-quality preschools, child care centers and other early education programs.
