The University of Houston-Victoria, located in the heart of the Coastal Bend region, is an upper-level institution that offers undergraduate and graduate students more than 30 degree programs and concentrations in the Schools of Arts & Sciences, Business, Nursing, and Education. A faculty of experts at UHV offers students individual attention to help them succeed, whether learning in a classroom or online. UHV is defined more as a delivery system than as a location, as the university extends instruction, learning support, student services and community outreach to any area. Although it serves primarily commuting students from Victoria and surrounding counties, UHV also offers degree programs, in collaboration with other UH System institutions, at two off-campus centers in Fort Bend County and offers courses at a number of off-campus sites in the region. Since its founding in 1973, outreach, community partnerships and collaboration have characterized UHV's history and mission.
