Congressman Rodriguez Applauds Parental Involvement

Crystal City, TX – Congressman **Ciro Rodriguez** was a special guest at TMC’s annual joint meeting of the Board of Directors and the Parent Policy Council of the Migrant Seasonal Head Start program. The Congressman took the opportunity to congratulate TMC for its parental involvement program and for its strong commitment to the children in the eight states where it offers services. “It is crucial that parents be involved in the education of their children and that we guarantee each child is provided every educational opportunity available as early as possible”, said Congressman Rodriguez.

Congressman Rodriguez congratulated TMC for its hard work and asked that they continue to include parents as part of the education solution. “Throughout our existence TMC has made parents a key piece of the education puzzle and together we have been able to provide children between the ages of six weeks to five years with the resources to enter school ready to learn”, stated Mary Capello – CEO.

Congressman Rodriguez congratulated the Board for their hard work and asked everyone in attendance to become part of the solution and spread the message of the importance of education. Also, he asked everyone to become a part of the political process and to share with children the important role government plays in their lives. “By holding us who hold elected office accountable you keep us focused and guarantee that we provide today’s children with a brighter future”, said Congressman Rodriguez.
