**Golden Crescent Receives Texas Workforce Commission Award**

Texas Workforce Commission saved the best for last, and awarded Workforce Solutions Golden Crescent with first place for exemplary performance serving those who qualify for assistance under the Workforce Investment Act (WIA). The statewide recognition was awarded on the last day of the 11th Annual Texas Workforce Conference held in Houston, TX. The award, a beautiful trophy and a \$100,000 incentive bonus was accepted by Golden Crescent Director Carole Kolle. Key Workforce staff, board staff, center staff, Texas Migrant Council, Inc. (TMC) Corporate staff and board member stood proudly and accepted the award.

“Words cannot express my appreciation to all staff who contributed to the successful year of serving dislocated workers, and disadvantaged adults and youth. Whether you answered the telephone, set up child care arrangements, arranged for someone to go before the training account committee (ITA), recommended a workshop to an individual who didn’t know how to sell their skills, introduced a youth to the world of work, helped someone find a job, recruited employers to provide jobs, or provided support services to the staff who provided the service, it takes everyone working as a team. We must continue to be a team with a vision to serve the citizens of Golden Crescent”, stated Carole Kolle – Program Director.

We have always known that Golden Crescent is the best Workforce program in the State and has the best staff in Texas. “Last year Golden Crescent received third place, but I knew Carole and her team were the best in the state. Now everyone knows we really are #1!” stated Mary Capello – TMC CEO.

The award will be located at the Victoria Center this week and will travel to each of the eight centers and then will be placed for all to see in the Board office.
